CD-rom Courses

Demos available on our web site!

No other training media offers the interactivity of software based training. Click on a lesson title, and you're immediately brought to a list of sub-topics for that lesson. Click on a sub-topic to see & hear the content for that topic. When you're finished with all topics in a lesson, complete an exercise and check it against the answers provided. And then – on to the next lesson.

► Machining Center Programming, Setup, & Operation

Presentation time: 6 hours, 5 minutes

- Uses our proven *Key Concepts* approach
- 24 highly tutorial lessons, 329 page manual
- Workbook and answer book
- Web access to our technical newsletter
- Free phone assistance

CDR-MCPO Machining center CD-rom course	\$249.00
CC-MCPO-M Extra manual for above	\$70.00
CC-MCPO-W Extra workbook for above	\$24.95

► Turning Center Programming, Setup, & Operation

Presentation time: 5 hours, 48 minutes

- Uses our proven *Key Concepts* approach
- 28 highly tutorial lessons, 393 page manual
- Workbook and answer book
- Web access to our technical newsletter
- Free phone assistance

CDR-TCPO Turning center CD-rom course	\$249.00
CC-TCPO-M Extra manual for above	\$70.00
CC-TCPO-W Extra workbook for above	\$24.95

► Advanced Techniques With Basic CNC Features

Presentation time: 4 hours, 18 minutes

- Topics not commonly shown in basic courses
- Advanced implications of /, N, G & M codes, F, S, T, & more!
- Printable 122 page manual (pdf) on the CD
- Web access to our technical newsletter, free phone assistance

CDR-ADT Advanced techniques with basic CNC features... **\$189.00**

► Setup Reduction For CNC Machining & Turning Centers

Presentation time: 3 hours, 47 minutes

- Setup reduction principles and specific techniques
- Workholding setup, cutting tools, program zero assignment & more!
- 135 page manual, 63 printable handouts (over 120 pages)
- Web access to our technical newsletter, free phone assistance

CDR-STR Setup reduction for CNC course.....	\$239.00
CC-STR-M Extra manual for above	\$50.00

► Cycle Time Reduction For CNC Machining & Turning Centers

Presentation time: 6 hours

- Cycle time reduction principles and specific techniques
- Load/unload, program execution, sizing, tool replacement & more!
- 145 page manual, 7 printable handouts (including planning form)
- Web access to our technical newsletter – free phone assistance

CDR-CTR Cycle time reduction for CNC course.....	\$239.00
CC-CTR-M Extra manual for above	\$50.00

► Parametric Programming

Presentation time: 9 hours, 30 minutes

- Presentations for machining centers and turning centers
- Fanuc custom macro B, Okuma user task 2, and Fadal macro
- 9.5 hours of presentation on three CDs, 240 page manual
- Workbook containing 8 exercises and 16 programming activities
- Answer book
- Web access to our technical newsletter, free phone assistance

CDR-PP Parametric Programming CD-rom course	\$399.00
CC-PP-M Extra manual for above	\$60.00
CC-PP-W Extra workbook for above	\$19.95

► CNC Router Programming, Setup, & Operation

Presentation time: 12 hours, 30 minutes

- 12.5 hours of presentation on three CDs, 300 page manual
- 24 highly tutorial lessons, Workbook and answer book
- One year subscription to our technical newsletter
- Free phone assistance

CDR-RPO CNC router CD-rom course	\$349.00
CC-RPO-M Extra manual for above	\$60.00
CC-RPO-W Extra workbook for above	\$19.95

CNC Video Courses

Our tried-and-true video courses are comprehensive, practical, and easy to understand. They can be viewed at home or at work by you or other personnel in your organization. And they come with everything you need to start up your own in-plant training program. We even offer a **fifteen-day money-back guarantee** for all video courses to ensure your complete satisfaction!

► Machining Center Programming, Setup, & Operation

- 15.5 hours of presentation on 10 video tapes, 24 lessons
- 329 page manual, Facilitator's manual including time outline
- Workbook containing 24 exercises, Answer book
- Web access to our technical newsletter, free phone assistance

FVC-MCPO Machining center video course	\$1,979.00
CC-MCPO-M Extra manual for above	\$60.00
CC-MCPO-W Extra workbook for above	\$19.95

► Turning Center Programming, Setup, & Operation

- 11.6 hours of presentation on 7 video tapes, 28 lessons
- 393 page manual, Time outline
- Workbook containing 28 exercises, Answer book
- Web access to our technical newsletter, free phone assistance

FVC-TCPO Turning center video course	\$1,449.00
FVC-TCPO-M Extra manual/workbook for above	\$79.00

► Custom Macro Programming

- 9.5 hours of presentation on 5 video tapes
- 250 page manual, Quick reference card, Time outline
- Exercises and answers
- Web access to our technical newsletter, free phone assistance

FVC-CM Custom macro video course	\$797.00
FVC-CM-M Extra manual/workbook for above	\$79.00

CNC Mini-Vids!

Finding information on advanced CNC topics has always been difficult — until now. Our collection of CNC Mini-Vids will let you learn what you need to know without having to attend full CNC courses and seminars. And in some cases, information included in our Mini-Vids can not be found anywhere else!

► Setup Time Reduction For CNC

MV-STR 60 minutes.....	\$179.00
------------------------	----------

► Cycle Time Reduction For CNC

MV-CTR 60 minutes.....	\$179.00
------------------------	----------

► Introduction To Probing

MV-PRB 82 minutes.....	\$179.00
------------------------	----------

► Introduction To Custom Macro

MV-CM 50 minutes.....	\$179.00
-----------------------	----------

► Rotary Device Programming For Machining Centers

MV-RDP 45 minutes.....	\$179.00
------------------------	----------

► Live Tooling For Turning Centers

MV-LT 65 minutes.....	\$179.00
-----------------------	----------

► Introduction To Fanuc Parameters

MV-PAR 65 minutes.....	\$179.00
------------------------	----------

Books & Publications

► Computer Numerical Control For Machining

This book provides the basics for learning how to program and operate the latest CNC controls. It examines the usage techniques for successful CNC operations in a variety of machine applications.

BP-CNCFM by Mike Lynch, 422 pages, McGraw Hill..... **\$65.00**

► Managing CNC Operations

This book provides help in four important CNC areas: understanding your CNC environment, educating your CNC people, setup and cycle time reduction, and other important CNC issues.

BP-MCNCO by Mike Lynch, 372 pages, SME..... **\$83.00**

► Parametric Programming For CNC Machines & Probes

Learn how to apply the best kept secret of CNC. Written for machining centers and turning centers, this book covers three popular versions of parametric programming. Part one stresses CNC machine tool programming. Part two teaches touch probe programming.

BP-PP by Mike Lynch, 420 pages, SME..... **\$83.00**

► Computer Numerical Control Accessory Devices

This book is filled with practical solutions for handling accessory devices on machining centers and turning centers. It presents information on numerous accessories that you can use to greatly enhance the performance of your CNC equipment.

BP-CNCAD by Mike Lynch, 257 pages, McGraw Hill..... **\$53.00**

► The Optional Stop Newsletter

With this quarterly newsletter, you'll be exposed to many tips and shortcuts that could save you hundreds (or thousands) of dollars in machine time. Download free from issue 50 at www.cncci.com.

OS-BI Back issues 1-50..... **\$199.00**

► Manuals From CNC Curriculums And CD-rom Courses

CC-MCPO-M Machining center manual..... **\$60.00**

CC-MCPO-WA Workbook/answer combo for above..... **\$39.90**

CC-TCPO-M Turning center manual..... **\$60.00**

CC-MCPO-WA Workbook/answer combo for above..... **\$39.90**

CC-STR-M Setup reduction manual..... **\$50.00**

CC-CTR-M Cycle time reduction manual..... **\$50.00**

CC-MCNC-M Maximizing CNC utilization manual..... **\$120.00**

CC-PP-M Parametric Programming for CNC machines.... **\$60.00**

CC-PP-WA Workbook/answer combo for above..... **\$39.90**

CC-RPO-M CNC router manual..... **\$60.00**

CC-RPO-WA Workbook/answer combo for above..... **\$39.90**

Instructor's Curriculums

Demos available on our web site!

Our CNC curriculums offer a proven, easy to use, concise, yet comprehensive, ready-made training program to minimize the preparation you must do to teach CNC courses. Right out of the box you get textbooks, workbooks, course outlines, and answers to practice exercises. There's even software based slide show presentations (Microsoft PowerPoint 2000) that contains audio guidance to help you be comfortable with teaching the class. This is truly everything you need to effectively teach CNC courses for the two most popular forms of CNC machine tools in existence today!

They're FREE with initial textbook order!

All we ask is that your school bookstore buys textbooks/workbooks from us! With an initial order of just 20 sets of student materials for a given curriculum, we'll ship the instructor's materials for that curriculum free of charge! Textbooks are \$60.00 each – workbooks are \$19.95 each (these are special prices and only available for purchases of ten or more). In essence, your first 20 students will be paying for the curriculum!

Student materials:

Textbook - Our highly tutorial textbooks precisely follow the slide show presentations you will be making. Each is very detailed (over 300 pages) and provides students with a way to review what you present.

Workbook - including one exercise per lesson.

Instructor materials:

All instructor materials are included on CD-rom disk/s. The machining center curriculum comes with two CD-rom disks while the turning center curriculum and maximizing CNC utilization curriculum come with one. All written documentation (instructions, course outline, answer book, final test and answers to final test) is provided on the CD in Adobe Acrobat (PDF) format and can be printed. Adobe Acrobat reader is also provided.

CD-rom including PowerPoint presentations

☛ Over 7,200 slides in machining center curriculum

☛ Over 3,000 slides in turning center curriculum

☛ Over 3,000 slides in maximizing CNC utilization curriculum

► Instructor's Curriculum For Machining Centers

CC-MCPO-M Machining center manual..... **\$60.00**

CC-MCPO-WA Workbook for above..... **\$19.95**

► Instructor's Curriculum For Turning Centers

CC-TCPO-M Turning center manual..... **\$60.00**

CC-TCPO-WA Workbook for above..... **\$19.95**

► Instructor's Curriculum For Maximizing CNC Utilization

CC-MCNC-M Maximizing CNC utilization manual..... **\$95.00**

Pricing only applies to orders of ten or more.

20 set minimum to receive free instructor materials.

Yes! I want to implement in-plant CNC training!
